

Optional services for maintenance contract

power module as a spare for MODULYS XL modular UPS system

The addition of the Power module as a spare option to the maintenance contract of MODULYS XL will always allow to maintain the level of availability of the installation.

A spare power module will be to hand next to the MODULYS XL so that the module can be swapped in case of failure in less than 5 minutes.

The module can also be used during the preventive maintenance visit - to be inserted instead of the maintained module and therefore ensure the same level of availability.

The price is “all inclusive” and comprises:

- a maintenance slot and a spare power module rental,
- training to enable the customer to change the module by himself and avoid any problems,
- the maintenance of the spare module (spare parts and consumables).

Key points

- > Spare power module available 24/7 on customer site
- > Price all inclusive covering training in how to swap the module, module rental & its maintenance

Benefits

- > “Ready to use” spare power module always available on customer site
- > Ensures the same level of secured availability during maintenance operations and in case of critical failure
- > No downtime during maintenance operations
- > Maintenance slot provided to test & repair the power module outside of the UPS system
